Moran Statement on Schult Homes Announcement to Close Plainville Plant

PLAINVILLE - Congressman Jerry Moran today released this statement following the news that Schult Homes would be closing its plant in Plainville.

"Schult Homes has a long history in Plainville and has played an integral part in the community. I was disappointed to learn of the news about the Plainville plant. I am visiting with local and state officials and am working to reach company officials to determine if there are any alternatives to closing the plant. The problem for Schult Homes in the past has been the need the workers. The decision may be difficult to turn around, but it is worth every effort."
